Mrs. Natacha Sesko
(b) (6)
Bremerton, WA 98312

Dear Mrs. Sesko:

It has come to my attention that you are taking action to remove some of the items currently in trespass on State owned aquatic lands adjacent to your property at 1701 Pennsylvania Avenue in Bremerton. This letter is notice that your activity on the property is not authorized by the Department of Natural Resources.

While the Department of Natural Resources continues to require that you take action to resolve the trespass, before commencing work you must obtain a right of entry from the Department to access the property and all necessary state and local permits to undertake the cleanup activity at the site. In addition, any activity on the property must be conducted with the utmost care so as not to spread or exacerbate any potential contamination at the site.

If you have any questions regarding this issue please contact Terry Pruitt, Assistant Attorney General at (360) 586-0642.

Sincerely,

Melissa Montgomery

Melissa Montgomery, Aquatic Land Manager
